Section 6:

“Optional Annuity. Any member may elect, at the time of retirement, subject to rules the board may from time to time establish, to take a reduced service retirement annuity and provide an optional annuity for a specified beneficiary. An optional annuity, as herein provided, means an annuity computed according to the approximate equivalent formula recommended by the actuary and adopted by the board, payable during the lifetime of the specified beneficiary only if such beneficiary survives the retired member who was receiving a reduced service retirement annuity. If the specified beneficiary predeceases the retired member, the retired member’s reduced service retirement annuity shall revert to the service retirement annuity calculated for the member had the member not selected the optional annuity. This recalculated service retirement annuity shall be payable beginning the first of the month following notice of the beneficiary’s death. The amount of the optional annuity shall be that specified in the member’s notice of election, and shall not, in any event, be more than the amount of the member’s reduced service retirement annuity. The annuity shall begin on the day following the death of the retired member.”
